No. 29, High Holborn.

PAPER-HANGINGS, MANUFACTURED UNDER HER MAJESTY'S ROYAL LETTERS PATENT.

E. T. ARCHER, 451, Oxford-street, solicits an inspection of the various DECORATIVE PAPERS, fitted up in panels on the walls of the extensive range of apartments, built expressly for that purpose; where also is kept an extensive stock of every variety of Paper-hangings at the lowest possible price and of the best manufacture, in English and French Designs, by the best Artists; and where may be had a large assortment of French and other Continental Paper-hangings always on hand.—Builders and large Consumers are particularly invited to the above.—451, Oxford-street.

FRENCH PAPER-HANGINGS MADE IN ENGLAND.

L. MARKS and Co., in order to go with the times, have, in addition to their usual large and magnificent Stock of French Papers, printed some very choice FRENCH DESIGNS, a stock of which is now ready, at prices ranging from 6d. to 18d. per piece of twelve yards long, including some new and choice specimens of marbles, oaks, and grasses, all made by improved machinery, on paper specially made for the purpose. Lining paper and canvas at mill prices.—Warehouse, 59, Princes-street, Leicester-square.

COMPOSITIONS for WRITING with STEEL PENS.—STEPHENS'S WRITING FLUIDS compose the most splendid and durable colours, and the most indelible composition which art can produce; they consist of a BLUE FLUID, changing into an intense black colour. PATENT UNCHANGEABLE BLUE FLUID, remaining a deep blue colour. Two sorts are prepared, a light and dark blue. A superior BLACK INK, of the common character, but more fluid. A superior CARMINE RED, for everyday writing. A liquid BRONZE CARMINE, for artists and contract writing, in glass bottles. A carbonaceous RECORD INK, which writes instantly black, and being fluid against any chemical agent, is most valuable in the prevention of frauds. A liquid MECHANICAL and ARCHITECTURAL DRAWING INK, superior to Indian Ink. Marking inks for linen, steel pens, inkholders.—Prepared by the inventor, HENRY STEPHENS, 34, Stamford-street, Blackfriars, and sold by booksellers and stationers everywhere, in bottles, at 3d., 8d., 1s., 2s., 3s., 5s., and 10s.

PATENT CORRUGATED IRON, PAINTED WITH METALLIC PAINT OR GALVANISED.—JOHN WALKER, Son and Successor to the Patentee (who has retired), begs to acquaint Architects, Builders, Engineers, &c., that by his own new method of corrugating he is enabled to execute any orders for Corrugated Iron Roofs, Portable Houses, and Sheets (for shipment, &c.), in a very short space of time, and at rates much below those hitherto paid.—He therefore hopes for the continuance of that support he has had for some years, and the future support of the public.—For drawings, estimates, &c., apply at the office, 61, Gracechurch-street, City.

FLEXIBLE INDIA-RUBBER PIPES AND TUBING, For Railway Companies, Brewers, Distillers, Fire Engines, Gas Companies, Gardening and Agricultural purposes, &c.—J. L. HANCOCK'S patent VULCANIZED INDIA-RUBBER HOSE PIPES are made to stand hot liquor, and acids without injury—do not become hard or stiff in any temperature (but are always perfectly flexible) and as they require no application of oil or dressing, are particularly well adapted for Fire Engines, Pumps, Gas, Beer Engines, Gardens, Liquid Manure, and all purposes where a perfectly flexible pipe is required. Made all sizes, from 1 inch bore upwards, and of any length to order. Vulcanised India rubber garden hose fitted with brass-taps, copper branch and rose complete, ready to be attached to pumps, water-butts, or cisterns. Sole manufacturer, JAMES LYNE HANCOCK, Goswell-mews, Goswell road, London.

JAS. LYNE HANCOCK invites the attention of parties using long lengths of FLEXIBLE GARDEN HOSE to his SELF-ACTING HOSE-PIPE REEL, which will be found a most convenient machine for readily winding up and conveying away the hose when out of use. By it also liquid manure is easily distributed from tanks.

N.B. Vulcanised India-rubber washers of all sizes for joints or hot-water and steam pipes, and vulcanised sheet rubber any thickness for all kinds of joints, and other purposes.

BUILDERS and CARPENTERS' IRONMONGERY WAREHOUSE, 18, Brandford-street, Manchester-square, leading out of Baker-street, Portman-square. Lists of prices may be obtained on pre-paid application.

JOHN and EDWIN YOUNG, Proprietors.

LAP WELDED IRON TUBES.—W. H. RICHARDSON, Jun., and Co., MANUFACTURERS of every description of WROUGHT IRON TUBES for Locomotive and Marine Boilers, Gas, Steam, and other purposes.

PATENT TUBE WORKS, DARLASTON STAFFORDSHIRE

IRON FOUNDRY, 80, Goswell-street (late of Brick-lane, St. Luke's).—J. J. JONES having made great additions to his STOCK of PATTERNS, begs to inform the Trade, that he can now supply them with Plain and Ornamental Iron Columns Girders, Railings, Gates, Iron Coping, Balconies, Window Guards, Verandahs, Ornamental Staircase Panels, Iron Staircases, Tomb Enclosures, Trellis Panelling, Lamp and other Brackets, Cantilevers, Newel Bars, Water Closet Work, Area Gratings, Fly and other Wheels, Wheel Plates, &c.

BAKERS OVEN WORK, Forge Backs and Troughs, Rain Water Pipes and Gutters, Sash Weights, Furnace Bars, Stoves, Ranges, &c., always in stock.

IRON FOUNDRY,

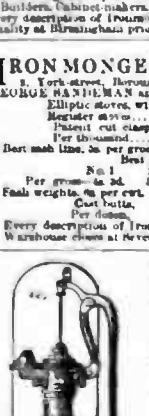
Per dozen,	8d.	11d.	1s. 6d.

Every description of Ironmongery at the lowest prices. Warehouse closes at Seven o'Clock.



TO BUILDERS AND PLUMBERS.

THE attention of the Trade is called to

JOHN WARNER & SONS' PATENT VIBRATING STANDARD PUMP,

which is recommended for the simplicity of its construction, and the ease with which it works.

By the introduction of the vibrating standard the cumbrous carriage and expensive slings and guides are unnecessary, rendering the pump considerably less than pumps made on the old plan.

Beer and Water Engines for raising fluids from a depth not exceeding 28 feet; also, Garden Engines constructed on the same principle.

JOHN WARNER & SONS,
8, Crescent, Jewin-street, London,
Manufacturers and Patentees.

FIRE-PROOF BUILDINGS.—PORTER'S PATENT.—By an improved mode of applying Corrugated Iron in the construction of Floors, Roofs, &c., for which Patents have recently been granted to John Henderson Porter, Buildings of every class can be rendered Fire-proof at a very trifling increase of cost, and without any increase of weight,—while from the absence of cast-iron and timber greater security is obtained, in point of strength, than by the ordinary method of construction.

PORTER'S PATENT BEAMS and GIRDERS of CORRUGATED IRON, on account of their remarkable stiffness, are particularly suitable for buildings and bridges: they are 30 per cent. lighter, and 25 per cent. cheaper, than other wrought-iron beams of equal strength.—Manufactory, Iron Building and Roofing Works, South-wark; Offices, 3, Adelaide-place, London-bridge, City.

THE SECURITY from FIRE which results from the adoption of the system of constructing FLOORS, CEILINGS, and ROOFS, invented and patented by Mr. FOX, is attained WITHOUT any INCREASE of COST. In this system the ordinary timber joists are superseded, and light iron ones in which the requisite degree of strength is developed by combination, are substituted: these, together with successive layers of incombustible materials, forming a perfectly fire-proof foundation, capable of receiving a finished surface of wood, composition, stone, slate, or tile, &c. This plan of building possesses much greater durability than the ordinary method: the timbers are effectually protected from the attacks of dry-rot; and the annoyance resulting from vermin and insects of all kinds is entirely prevented.

The advantage of this system, whether in Dwelling-houses, Warehouses, Manufactories, or other buildings, is attached with economy immediate, in the reduction of the first cost; and prospective, in the absence of charges for repairs. Every advantage attained by the ordinary methods of fire-proof building is effectually secured at about one half the cost, while the lateral thrust, to objectionable in the iron girder and brick arch system, is entirely avoided. The great superiority of this plan has been proved by many years of trial, and every information obtained on application to Messrs. FOX and BARRETT, Leicester Chambers, 46, Leicester-square.

IRON SHUTTERS.—The PATENT CONVEX REVOLVING IRON SHUTTERS are cheaper, twelve times stronger, work easier, occupy less room, and rolled up in one-third less room than any other shutters made. Harcourt Quinney, Patentee.

CLARK and Co., Sole Manufacturers, and of IMPROVED DRAWN ORNAMENTAL METALLIC SASH BARS, CASTRA-GALS, MOULDINGS, STALLBOARD PLATES, &c. &c., in brass, copper, and zinc. WROUGHT-IRON GIRDERS, HOT-WATER APPARATUS, and metal works of every description connected with buildings. Steam engines, millwork, and machinery. CLARK and Co., Engineers, 239, Whipping, Middlesex (an area and every information obtained at 434, Oxford-street), and 4, Montgomerie-street, City Arms for Scotland. Mr. G. BRUNTON, 17 George-street, Edinburgh.

SNOXELL'S PATENT SAFETY REVOLVING WOOD SHUTTERS, Manufactory, 88, REGENT-STREET and 181, CHANCERY-LANE, sealed on the 4th day of February, 1845, for Fourteen Years, for Improvements in Revolving Shutters of WOOD and IRON, consisting of Six Methods of Raising and Lowering Shutters, without Machinery, and Two for Hanging and Securing the Edges of Wood Laths with Iron.—The Patentee having fitted up some hundreds, will feel pleased in forwarding the Testimonials of Architects, Principals of large Establishments, and others, having them now in use, which fully guarantees the Patentee in stating they are beyond dispute superior to any other Revolving Shutter for durability, security, and simplicity, without the use of expensive wheels and lever rods, or any other complicated machinery employed by other makers.

BUNNETT and Co., ENGINEERS, Patentees of REVOLVING IRON AND WOOD SAFETY SHUTTERS, and of ORNAMENTAL METALLIC SASH BARS, MOULDINGS, &c., IN BRASS, COPPER, ZINC, &c. FOR SHOP-FRONTS, SKYLIGHTS, &c.

Shop-fronts complete, fitted and fixed in a superior style, either plain or ornamental, also glazed with the best plate glass, supported moulded stallboards handsomely engraved. Metal works and machinery of all kinds in connection with banking houses, shops, warehouses, &c. &c.

N. and Co.'s prices are competitive as to either quality or price. Designs furnished and estimates given.

IMPROVED PATENT BENCH AND FLOORING CRAMPS FOR BUILDERS.

SOLE LICENCEES FOR MARVIN and WOOKE'S PATENT DIAGONAL GRATINGS.

Office of the Patentees, 28, Lombard-street, London; and at the Works, Deptford, Kent.

TO BUILDERS, CABINET-MAKERS, AND OTHERS.

LEA'S PATENT MORTISE LOCKS and BOLTS

are a great improvement over the present mode of fastening all doors, internal and external; they are also much better and cheaper than the expensive bolts fastening for French and other casements.

THE USE OF FLUSH BOLTS IS ENTIRELY SUPERSEDED,

and both doors are ingeniously and effectively rendered secure.

Prices and every information given at the Agents, A. L. PEEL and Co., Wholesale Ironmongers, 7 and 8, Broad-street, Bloomsbury.

CHUBBS' LOCKS, FIRE-PROOF SAFES, AND CASH BOXES.

CHUBBS' PATENT DETECTOR LOCKS give perfect security from false keys and picklocks, and also detect any attempt to open them. They are made of all sizes, and for every purpose to which locks are applied, and are strong, secure, simple, and durable.

CHUBBS' PATENT LATCH, for front doors, counting-house doors, &c., is simple in construction, low in price, and quite secure. The keys are particularly neat and portable.

CHUBBS' PATENT FIRE-PROOF SAFES, IRON CANE CHESTS, &c., made entirely of strong wrought-iron, so as effectually to resist the falling of brick-work, timber, &c., in case of fire, and are also perfectly secure from the attacks of the most skilful burglars.

CHUBBS' CASH and DEED BOXES, fitted with the Detector Locks.

CHUBB and SON, 57, St. Paul's Churchyard, London.

LEADBEATER, FIRE-PROOF SAFE AND DETECTOR LOCK MANUFACTURER TO HER MAJESTY'S BOARD OF ORDNANCE.

CAUTION to Purchasers of FIRE-PROOF DOORS for Strong Rooms, Safes, Chests, and Detector Locks, &c. &c. LEADBEATER, many years manufacturer for Chubb.

LEADBEATER begs most respectfully to inform Bankers, Merchants, Builders, &c., that he can supply them with IMPROVED DETECTOR LOCKS for universal purposes, STRONG WROUGHT IRON FIRE-PROOF DOORS, SAFES, and CHESTS, &c., on the most improved principles of security, and at the lowest FIRE and THIEVES, with one of the best of experience manufacturers, which is employed by some inexperienced makers, but must be paid for; at prices 25 per cent. under any other house in London.

LEADBEATER offers ONE HUNDRED POUNDS reward to any person who can pick his improved detector locks or latches. Some thousands of Leadbeater's strong room doors and safes have now been put up without a SINGLE COMPLAINT, and fifteen years' practical experience, during which he has adapted every possible improvement to real security, enables him to challenge competition with any house in London. A large assortment of all sizes on sale and made to order. A pair of extra strong wrought-iron fire-proof folding-doors with ventilating plate, made expressly for a banker's strong room, may be viewed at his manufactory. Strong wrought-iron doors for party walls, with wrought-iron rebated frames, and secured by the PATENT DETECTOR LOCKS in ENGLAND, 6 feet high by 3 feet 6 inches wide and upwards, 40 guineas each, always on hand at LEADBEATER'S MANUFACTORY, 138, ALDERSGATE-STREET, LONDON.
